Multimedia Developer

Description

The Multimedia Developer will be responsible for developing bespoke websites for the company and its operations, as well as creating multimedia product designs using specialist software.

Responsibilities

- Developing a website for the company and linking it with partners and client portals to make operations more cost-effective and time-saving.
- Meeting and liaising with clients and managers to discuss requirements or project progress.
- Writing code to program functions, graphics, sounds, and digital animation.
- Keeping the company website up to date and staying current with technological and software developments.
- Producing products that are user-friendly, effective, and visually appealing.
- Working as part of a multi-disciplinary team.

Qualifications

- Experience in web development and programming, including proficiency in HTML, CSS, JavaScript, and other relevant programming languages.
- A basic formal education in computer science, web development, or a related field.
- Good standard of spoken English to communicate effectively with clients and team members.
- Willingness to perform other duties as advised by the manager.

The ideal candidate should have a strong understanding of web development best practices and be able to create interactive, visually engaging, and responsive websites that meet the company's objectives. They should be able to work well under pressure and deliver projects on time.

The candidate should have knowledge of web development frameworks like React, Angular, Vue.js, etc. Familiarity with web development tools such as Git, Webpack, Grunt, etc. Familiarity with at least one back-end programming language such as Python, Node.js, Java or C# is also desirable. They should be able to work in a team environment and be able to communicate effectively with clients and other stakeholders.

Skills

- The ideal candidate will have at least 6 months of experience in IT and have the following skills:
 - Excellent interpersonal skills
 - Flexibility and adaptability
 - A natural inclination to be easygoing
 - Creative and able to think out of the box
 - Self-motivated and proactive
